

BY AUTHORITY. ORDINANCE NO. 76.

AN ORDINANCE TO ESTABLISH THE OFFICE OF PURCHASING AGENT OF THE CITY AND COUNTY OF HONOLULU, DEFINING ITS DUTIES, PRESCRIBING THE PROCEDURE FOR THE REQUESTION AND FURNISHING OF MATERIAL AND SUPPLIES, AND PROVIDING PENALTIES FOR THE VIOLATION OF THIS ORDINANCE.

BE IT ORDAINED BY THE PEOPLE OF THE CITY AND COUNTY OF HONOLULU:

SECTION 1. ESTABLISHING THE OFFICE. The office of Purchasing Agent is hereby established in the City and County of Honolulu.

Such officer shall be appointed by the Mayor, with the approval of the Board of Supervisors, and, unless sooner removed for cause by the same authority, shall hold office for a term coincident with the term of office of said Board and until his successor is appointed. The Purchasing Agent shall receive such salary as shall be appropriated from time to time, and shall give a bond to the City and County of Honolulu in such sum as the Board of Supervisors may determine for the faithful performance of the duties of his office.

SECTION 2. DUTIES. The Purchasing Agent shall have supervision of the purchase of all material and supplies for the City and County of Honolulu under the provisions of this ordinance, and regulations for his guidance not inconsistent with existing law may from time to time be adopted by the Board of Supervisors. He shall obtain from the several departments of the City and County on the first day of January and the first day of July of each year, lists of such material and supplies as may be required by them in their respective departments for the semi-annual period beginning on each of those dates, and shall forthwith prepare schedules from said lists, in which the names and kinds of all of the said materials and supplies shall be set forth, as particularly described as possible. When such schedules have been prepared, the Board of Supervisors shall cause an official notice, signed by the City and County Clerk, to be inserted at least ten times successively in a newspaper of general circulation published in the City and County, inviting bids for furnishing the material and supplies designated in said schedules, with reference thereto, and shall furnish intending bidders with copies of said schedule. The said notice shall require that all bids be sealed and marked on the outside of the envelope "Bids for material and supplies," and that the Board of Supervisors reserves the right to reject any or all bids, also that a certified check in the amount of five per cent of any lump sum bid or more than one hundred dollars may be required to accompany such bid.

All purchases and contracts for material and supplies for the City and County of Honolulu shall be made by the Purchasing Agent in the name of the City and County of Honolulu, and the department therein, such as Honolulu Water Works or Honolulu Sewer Works, to which the said material and supplies are to be furnished, subject to the approval of the Board of Supervisors. There shall be separate proposals and contracts for different classes of material and supplies, and records thereof shall be open at all times for the inspection of the Mayor and Supervisors and of all others.

Forms of requisitions for material and supplies and of orders for their delivery, each in uniform style, together with other forms needed in the performance of his duties, shall be prepared by the Purchasing Agent, with the approval of the Board of Supervisors, according to the provisions of this ordinance, as part of the incidentals of his office.

SECTION 3. AWARDING OF CONTRACTS. At the next meeting of the Board of Supervisors after the closing of bids, or as soon thereafter as the same may be reached, all bids received by the Purchasing Agent in response to advertisement therefor, as hereinbefore provided, shall be opened by the City and County Clerk and the names of the bidders read aloud by him, whereupon the bids so opened shall be referred to the Purchasing Agent, who shall forthwith tabulate their contents in alphabetical list of articles with the names of the respective bidders set opposite the names and descriptions of the articles they offer to supply together with the prices stated in the bids, and at the next succeeding meeting of the Board of Supervisors submit such tabulation for action with any recommendation he may see fit to make. Thereupon the Board of Supervisors shall proceed to award the contracts to the lowest bidders in each case, unless good and sufficient reasons are shown why the lowest or any particular bid should be rejected.

In the event of material and supplies being required by any department between the times of awarding semi-annual contracts, which are not covered by any existing contract, the Purchasing Agent, with the consent and direction of the Board of Supervisors, shall proceed to procure such material and supplies in the same manner as hereinabove provided for the beginning of a period, excepting that in case there are not more than five separate dealers in the articles wanted doing business within the Territory of Hawaii the Purchasing Agent may be authorized to invite bids by identical letters mailed on the same day to such dealers instead of by public advertisement.

In the event that materials and supplies, other than those listed in the schedules hereinbefore mentioned, are to be purchased, it shall be the duty of the Purchasing Agent, before the purchase of such materials or supplies, to procure competitive bids for the same from at least five responsible dealers, if so many such dealers are reasonably available, and if not, then from as many such dealers as are reasonably available, and secure a bond to be given for the faithful performance of any contract under this ordinance.

SECTION 4. FURNISHING AND DISTRIBUTION OF MATERIAL AND SUPPLIES. Upon the awarding of contracts as prescribed in the preceding section, the Purchasing Agent in writing shall notify all successful bidders of the acceptance of their bids and obtain from them a written acknowledgment, the said notification and acknowledgment to constitute a contract under this ordinance, provided, however, that the Board of Supervisors may require a more formal contract in transactions of large or complex nature. A copy of the said notification and the acknowledgment shall be kept on file by the said Purchasing Agent.

Any department requiring material or supplies shall receive such from the contractor for the kind of material or supplies wanted upon an order from the Purchasing Agent in conformity with the requisition therefor. Requisitions shall be made out in duplicate by the applicant for material and supplies. Before issuing an order to the contractor for the article or articles desired the Purchasing Agent shall submit the requisition to the Auditor and ascertain from him whether the appropriation for materials and supplies, or incidentals as the term may be, for the applicant is sufficient to cover the cost of the article or articles requisitioned, and if so request the Auditor to signify his approval of the expenditure involved by countersigning the requisition.

After contracts for materials and supplies have been awarded as herein prescribed the Purchasing Agent may procure and keep on hand, in convenient storage under lock and key, such material and supplies as to him may seem expedient, distributing them to the respective departments upon requisitions therefor made in accordance with the provisions herein, and for this purpose moneys may be appropriated from time to time by the Board of Supervisors, provided that the cost of any supplies so delivered shall be charged to the incidentals of the department making the requisition and credited to the appropriation so made for the purpose herein mentioned.

SECTION 5. STANDARDIZATION OF MATERIAL AND SUPPLIES. The Purchasing Agent, with the approval of the Board of Supervisors, shall secure uniformity in materials and supplies so far as such is practicable; therefore, in preparing schedules which to invite bids, the Purchasing Agent shall ascertain from heads of departments their choice, if such they have, between particular brands, grades or makes of articles required in their respective departments, and where articles of identical use are required by different departments, endeavor to secure united choice of one such particular brand, grade or make so as to create opportunity for economical buying in large quantities. Where good and sufficient reasons of a technical nature are not shown to make an exception to the rule, the choice of a majority of departments will be binding upon all for acceptance of an article thus chosen. Reason for rejecting the lowest bid for an article shall exist upon proof being submitted by any official or person interested that the particular brand, grade or make of the article is defective in degree to make its use undesirable.

SECTION 6. GENERAL PROVISIONS. Material and supplies, as mentioned in this ordinance, shall embrace all office supplies, printing, feed, provisions, fuel, oils, building materials, implements, machinery, electrical apparatus, wire and pipe, together with all and sundry the material and supplies needed regularly or specially by the several departments of the City and County, as well as regular payrolls of the City and County or by specific items in an appropriation bill or resolution, except official advertising, unless otherwise ordered by the Board of Supervisors in the case of any such services.

Department, as mentioned in this ordinance, shall include the Board of Supervisors and any agency, commission or committee of the City and County government when empowered by law or resolution to have purchases made or services performed. Only heads of departments and their authorized deputies shall act for their respective departments under this ordinance. The Purchasing Agent shall keep, for a permanent record, a true and faithful abstract of all bids made for furnishing material and supplies to the various departments of the City and County of Honolulu, giving the name of each bidder, the terms of the offer and the price to be paid, and shall keep on file and preserve all such bids until one year after the end of the contract term to which they relate.

Each bidder shall have the right to be present, either in person or by agent or attorney, when the bids are opened, and shall have the right to examine all bids. The Board of Supervisors may require a bond to be given for the faithful performance of any contract under this ordinance.

SECTION 7. PROHIBITIONS AND PENALTIES. No person authorized to purchase or receive material and supplies under this ordinance shall accept any fee, reward, gratuity or favor in connection, directly or indirectly, with any bid, award or purchase of material and supplies for the City and County of Honolulu, and no person herein authorized to receive material and supplies shall procure such by any other method than that herein prescribed.

Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not less than Twenty-five dollars (\$25.00) nor more than One Hundred Dollars (\$100.00) for a first offense, and not to exceed Two Hundred and Fifty Dollars (\$250.00) for a subsequent offense within one year. In the case of a salaried official or employee of the City and County offending against this ordinance, he shall be liable to impeachment and dismissal for malfeasance of office.

SECTION 8. This Ordinance shall take effect ten (10) days after its approval and publication.

Introduced by

DANIEL LOGAN, Supervisor.

Date of introduction, March 26, 1915.

Approved this 30th day of April, A. D. 1915.

JOHN C. LANE, Mayor, City and County of Honolulu.

6157-May 6, 7, 8.

ORDINANCE NO. 78.

AN ORDINANCE RELATIVE TO THE ESTABLISHMENT OF GRADES AND SIDEWALK LINES ON KALAKAUA AVENUE, FROM ENA ROAD TO KAPOLIANT PARK DRIVE.

Be it ordained by the people of the City and County of Honolulu:

Section 1. Curb grade, finished center line grade, datum plane. The curb grades and finished grades of the center line of Kalakaua avenue, from Ena road to Kapiolani Park drive, in the District of Honolulu, City and County of Honolulu, are hereby established in reference to a datum plane being mean tide at said District of Honolulu, and the same located as follows, to wit:

A bench mark at the foot of the pillar on the left side of the front entrance to the Judiciary building in said District of Honolulu, is 16.5 feet above said datum plane.

Said grades are above said datum plane the distances specified on a map, which is on file in the office of the City and County Engineer, and is marked Grade Map No. 13.

Section 2. The sidewalk lines, which are also the curb lines of said Kalakaua avenue, shall be parallel with and at distances from the described offset line shown on Grade Map No. 13, which is hereby made a part of this ordinance.

Section 3. The offset line of Kalakaua avenue, from Ena road to Kapiolani Park drive, is hereby established as follows:

Beginning at a point which is on a 29.0 foot offset from the southwest property line of Kalakaua avenue, said point being by true azimuth 332° 39' 20" and distant 736.6 feet from a street survey monument at the first angle in said Kalakaua avenue north of Ena road, said point being also by true azimuth 62° 4' 30" and distant 2.0 feet from the point described as the end of course No. 6 in ordinance No. 66 for Kalakaua avenue, and shown also on Grade Map No. 6, and running thence by true azimuths as follows:

1. 332° 04' 30"—16.34 feet;

2. 330° 51' 15"—154.48 feet; thence curving to the right with a radius of 2864.93 feet, the azimuth and distance of the long chord being:

3. 332° 36' 45"—175.81 feet; thence

4. 334° 22' 15"—234.75 feet; thence curving to the left with a radius of 5729.65 feet, the azimuth and distance of the long chord being:

5. 333° 25' 45"—188.33 feet; thence

6. 332° 29' 15"—692.00 feet; thence curving to the left with a radius of 955.37 feet, the azimuth and distance of the long chord being:

7. 327° 19' 45"—171.80 feet; thence

8. 322° 10' 15"—183.95 feet; thence curving to the left with a radius of 1432.69 feet, the azimuth and distance of the long chord being:

9. 317° 57' 45"—210.48 feet; thence

10. 312° 45' 00"—740.00 feet; thence

11. 314° 07' 00"—556.25 feet; thence curving to the right with a radius of 1146.25 feet, the azimuth and distance of the long chord being:

12. 318° 12' 30"—25.67 feet; thence

13. 318° 17' 45"—65.70 feet; thence curving to the right with a radius of 573.68 feet, the azimuth and distance of the long chord being:

14. 324° 55' 00"—132.29 feet; thence

15. 331° 32' 30"—164.07 feet; thence curving to the right with a radius of 1910.08 feet, the azimuth and distance of the long chord being:

16. 332° 56' 00"—92.78 feet; thence

17. 334° 19' 30"—391.10 feet; thence

18. 333° 36' 00"—494.75 feet; thence curving to the right with a radius of 2864.93 feet, the azimuth and distance of the long chord being:

19. 335° 11' 30"—159.15 feet; thence

20. 336° 47' 00"—420.20 feet.

Section 4. This ordinance shall take effect on and after the date of its approval.

Introduced by

CHAS. N. ARNOLD, Supervisor.

Date of introduction: April 13, 1915.

Approved this 30th day of April, A. D. 1915.

JOHN C. LANE, Mayor, City and County of Honolulu.

6157-May 6, 7, 8.

MAUMEE SETS A NEW RECORD ON THE COAST

A new record for speedy construction at a Pacific coast shipyard has been set in the completion of the United States naval tanker Maumee at Mare Island. It will be the first ship of its kind to use oil engines.

The keel of the Maumee was laid on July 23, 1914. She could have been launched on January 23, 1915, if there had been any necessity for putting her overboard at that time, but she was held on the ways to facilitate the handling of the heavy materials incident to her completion. As a result the Maumee will present a much more finished appearance as she slides down the way than is usually the case at this stage in the building of a large vessel.

She will be about 82 per cent completed and it is expected to have her ready for commissioning in July, with the exception of the engines, which are being built at the New York Navy Yard.

The Maumee will have a complement of 10 officers and 128 men, with room for an additional complement of 25 men, making a total of 153. She will carry four 4-inch, 50-caliber rapid fire guns—two on the forecastle and two on the poop deck aft, for protection against destroyers and submarines.

She will have a capacity of 2,260,000 gallons cargo fuel oil, and 469,100 gallons bunker oil for her own consumption, besides being fitted with especially large spaces for fleet stores, such as gasoline, lubricating oil, paints and general stores. She is fitted with an efficient fire-extinguishing system, utilizing carbon dioxide gas, which can be forced into any compartment.

The machinery, as in all modern tank ships, is located in the stern, and she will carry in addition to her main propelling engines, two oil-burning Babcock & Wilcox boilers of small size, for operating dynamos, pumps, providing steam for heating, etc.

Her principal dimensions are: Length over all, 475 feet; beam, 56 feet; draft, 26 feet 4 inches; displacement, 14,570 tons.

She carries a boat equipment which includes a 33-foot motor sailing launch, two whaleboats and a motor dory.

A point of interest in this vessel are the oil burning ranges with which the galley is equipped.
